LOW RATES

Our rates for handling tenant evictions are already **among the lowest** in Sacramento County. However, in a gesture to encourage your new volume property management or apartment complex business with our firm for Sacramento County rental properties, we ask you to simply provide us with the rates of your current attorney for handling evictions; I will then let you know how much **less in fees** and costs we would be able to charge you for handling your evictions. For your new business, I will make every effort to **beat any regularly advertised eviction law firm rates in Sacramento County.**

VOLUME DISCOUNTS

We offer **special low rates** for management companies and apartment complexes who allow us the privilege of handling all of their eviction matters. Since 1979, we have worked closely with many large and small property management companies and apartment complexes. Certainly, the more business this office is permitted to regularly handle for a particular company or client, the greater the special low rate reward for the client. This arrangement benefits both the owner who will be paying lower rates, as well as the property management company who will be able to more effectively promote more property management business.

FREE INTRODUCTORY EVICTIONS

If you have not used this office previously, and have a volume of evictions for us to handle for you or owners in the future, we would also be interested in discussing the handling of several evictions for you without any charge whatsoever - of course, you would be responsible for the actual costs of litigation (filing fees, process serving, etc.) We do this to encourage your new and continuing business. We sincerely believe that once we are acquainted with one another, you will remain with this law firm for many years to come.
